

Renewable Energy Insurance

Renewable Energy Insurance from SPRIG Insurance helps developers provide a stable foundation for encouraging investment in and development of, renewable energy projects. Through Renewable Energy insurance, developers can be assured of managing the numerous challenges, including delays, breakdowns and income instabilities that can arise through the many phases of the project.

SPRIG Insurance provides a comprehensive suite of insurance products to suit the Renewable Energy industry. Our packages are tailored to your specific business needs. By bundling the insurance offering, we are able to consolidate coverage and provide single-source warranty management for claims authorisation, payment and management.

We offer a worldwide solution with one of the largest capacities for any one project or phase in the market. Further, our Insurers hold security ratings 'A' or better by all leading rating agencies to comply with your financial requirements.
